

Group 20

Calvin Du, Dishika Taneja, Geoff Lei, Stanley Yuan

1) Goals

- **What are our team goals for this project?**
 - Complete the project
 - Learn to work in statistical group project environment
 - Complete models and visualizations timely and efficiently
 - Delegate work amongst group

- **What do we want to accomplish?**
 - To successfully download data to conduct analysis upon to create an electronic report.
 - Create elegant visualizations

- **What skills do we want to develop or refine?**
 - Statistical modeling of real world concepts/situations
 - Link skills learned in class to real life
 - Visualization of data

- **Expectations**
 - Be timely, punctual, get work done on time, communicate if you can't

- **What do we expect of one another regarding attendance at meetings, participation, frequency of communication, quality of work, etc.?**
 - To show up to all pre-scheduled meetings and actively participate with the group
 - Communicate bi-weekly, with more meetings towards due dates
 - Group agrees upon quality of work

2) Policies and Procedures

What rules and procedures can we agree on to help us meet our goals and expectations and deal with members who do not fulfill their part in the contract?

- To show up to all agreed upon meetings
- Members who fail to meet the policies will serve the corresponding consequences listed below.

3) Consequences

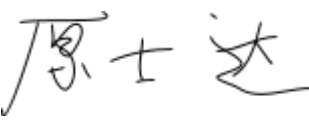

How will we address non-performance regarding these goals, expectations, policies and procedures?

- Talk amongst the group first to see if a solution arises, if not then bring it up to TAs or Teachers.
